

Part 14 - True Constitution Why The Flag?

SYMBOLIC REPRESENTATIONS, CAREWEN, 28TH MAY 2021

Where the 12-Pointed Star, The Sun and the Dove (*Symbol of the 'I AM'*) All Represent and Symbolize the Electrical Lightning Influx of the Magnetic Sacred Cosmic Christ White Fire Light Substance from the Great Central Sun.

'Sphere of Influence'.

"A '*Forcefield*', a controlled, constructive, harmonious, positive '*Sphere of Influence*' does exactly what its name implies; influences the generation of similar Qualities of Faith, Hope, Charity, Harmony, Spiritual Aspiration in those it connects to and is in contact with. The power of contagion, so aptly demonstrated in the transference of fear and panic through mass hysteria, is equally applicable in the transference of God's Qualities and Nature. There really is no difference between a '*sphere of influence*' and a conscious thought form and a '*Forcefield*' apart from the truth or Truth that it is founded within. I use herewith the word '*Forcefield*' to convey the picture of a battery of constructively and positively charged energy made up of the combined Auras of Groups of Conscious Disciples, gathered together in Cooperative Service to mankind in one place.

Excerpt from the Discourse '*3 ENACA Petition Explosion of Consciousness Maha Chohan 20190718*'.

"The 'Forcefield' is made up of the Fusion and Amalgamation of Energies gathered together by all in attendance, the unascended humans, the Elementals, Angel Devas, Angelic Host and Builders of Form. These combined with the Decrees, Visualizations, Invocations, Songs and general application of the Group of Disciples who wish to form a Radiating Centre for God's Blessings in their particular Principle, Facet, Function, Condition, or Area of Life amplify the Essences available for dissemination. In exactly the same manner that the individual 'sphere of influence' is a combination of the energies released through the contributing centres of thought, feeling and action, so is the corporate 'Forcefield' of the Group composed of the consciousness and application of every member of that Group." End of Excerpt

The Antahkarana, the Bridge or Flagpole Explained.

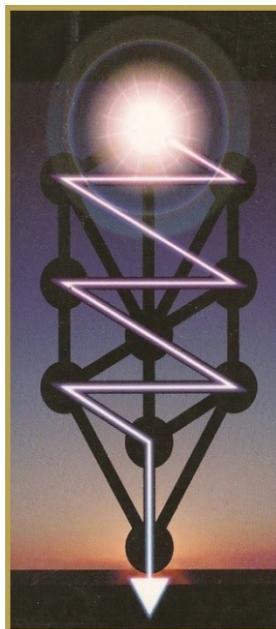

If mankind can become the Flagpole that Flies the Truth, Love, Power and Wisdom of the New Flag of the '**I AM' One World Nation, The Insignia of Its Reality**; The Love and Wisdom and Power and Its Rightful Use and Applications to All God Life, how quickly the world will change! Being the Flagpole Flying the Flag, for change means that you will eventually penetrate through the astral and psychic plane and penetrate the 9th Dimensional Realms that Jesus the Christ Achieved in His Ascension. This Dear Hearts is about following the Christ in His Footsteps. And not being limited by the 9th Dimensional Realms of Higher Mind. In this

present **'Time of Christ'**, the Ascension is possible for all those who are ready to make the changes in their life, in a more balanced State of Higher Mind and Higher Heart! This is the Promise of the **'I AM' One World Nation and the 'True Constitution'**, that this New Flag, shall bear Witness! This **'Flag'** shall be the **'Landmark'** that begins this Mighty Endeavour for the Mass Ascension of Humanity to Re-Establish, Regenerate and Rejuvenate Their Divine Sovereignty in the Truth of Who They Truly Are!

To Divinely Understand why this Flag shall be so important, in its Presentation and Symbolic Representations will help to reveal the Truth by Seeing it as a Form made manifest of God's Radiance and Magnetic Dynamism.

We each are, of course, the flagpole - our spines are the pole that carry, not only our bodies, but our Essence out into the world - our spines are the conduit for connection to both the Inner and outer worlds - each needs a strong spine (backbone/ flagpole) to hold the electrical charge coming from Shamballa. 'I AM' reminded, of how when Lightning strikes, what happens to the electricity. Some of the charge dances outward seeking ways to ground.

'I AM' Attaching an image of the Kabbalah, the Tree of Life, that shows the Lightning Electrical strike flowing down from the Ain Soph through each of us as we walk upon this Earth. The Central Pillar represents our Spines/Flagpoles and the portals of reception and distribution, (chakras), that we each are gifted as the Hearts, Hands and Feet upon this Earth to share with All.

The Flag Displays and Represents the Unity and Diversity held within each Being - a Form created by the Elements, irradiated by the Light and Love of the Great Central Sun and each and every one of us held within the Consciousness of the Divinity of the Cosmos. From this Unity each one springs as a *'personification'* of the Rays embodied and as a Seed, with the

ultimate potential to flower as a Christed Being - each unique, each Unconditionally Loved and each an Image of the Creator.

'I AM' reminded, in turn of the image of many Flagpoles. This Flagpole is not unique or special. It is just one of many Lightning Rods for the Light of Shamballa. The image expands... The Flagpole could be seen as symbolic of Group 1, the Esoteric Group, cultivating its capability with the Science of Impression, of Receiving Expanded Information of the Divine Plan, of Reaching to the Higher Realm of Ideas for the Golden Age. The Flag could be seen as symbolic of Group 2, the Exoteric Group, that which goes out into the world, provides information, education, organization. The wind makes the Flag fly, and its imagery becomes clearer. But without the Flagpole, the Flag has no foundation, no place from which to fly. Without Group 1 and Group 2, The Inner and Outer Circles, have no foundation.

And the final aspect of this particular image is this. We are learning what it is to be a Living Organism. That, where lives change, evolve. Circles change, evolve. Respites provide space for incubation, for growth, for leaps of change. The Shape of the organism, the Circles of the organism, have to change if the organism is to be considered living.

So, wherever we are, whatever we are doing, it is the Being Within, the 'I AM' Presence, that Irradiates from the Flagpole through the Flag, that has the potential to Bless every Precious Moment, Every Exquisite Soul, Every Beloved Elemental, Deva and Angelic Host, Indeed, All Lifestreams."

The Flagpole and the Lightning and Electricity that is generated from the Tree of Life, Embodying God's Divine Powers connecting to the One and Grounded firmly into 'I AM' GAIA, Creating a Forcefield of all Our Ray Qualities and Virtues.

The Kabbalists Grouped these aspects of God's Power together in three Groups, **Three Pillars or Columns** (flagpoles symbolically speaking) supporting the Tree of Life.

1. The Righthand Column of the Tree is the **Pillar of Mercy** (Positive – Masculine Polarity) made up of Hokmah (Wisdom), Hesed (Love Mercy) and Netzah (Victory).
2. The Left-Hand Pillar-Column is **the Pillar of Judgment** and has a Feminine Negative Polarity – made up of Binah – Understanding, Gevurah – Justice/Judgement and Hod – Splendour/Majesty.
3. The Central Pillar-Column is **Taller** than the Right and Left Pillars. It is the **Pillar of Compassion – Balancing and harmonizing of the extremes of Mercy and Judgment through Compassion** is what Sustains our World. It is made up of Keter (CROWN) at the top, Tifret (Beauty and Compassion) at the Centre; then Yesod (Foundation) and Malkut (Kingdom) at the bottom.

The Action of the Secret Rays.

Mighty Cosmos explains the Action of the Secret Rays: *Elizabeth Clare Prophet, The Opening of the Seventh Seal: Sanat Kumara on the Path of the Ruby Ray.*

“The secret rays promote an action of detail, the final sculpturing of the mind and consciousness in the perfect image of the Christ. The secret rays are like the refiner's fire. They purge, they purify. When man has said of himself ‘My work is finished’, I have sent forth the secret rays to show him that the detail was not finished. For in the conclusion of the spiral, the Law requires perfection.

“The Secret Rays come into your being to arrange the floral offering of the Soul, to see that all is in readiness that you might stand before the Court of the Sacred Fire and present yourself in the best Light, the best image which you can muster and which you have built as the giant pyramid through the ages, ages of incarnation.

*“You have heard that man is a Starry Body, a Five-Pointed Star. The Five Points of Light that make the star of this version of man’s consciousness are the Five Secret Rays. The exactness of the Secret Rays as they are released from the centres placed within your form for this purpose goes forth into the world to draw all into the plumb line of Divinity. I say then, this is no time for dalliance, for sloppiness, for lack of cleanliness in your person. **For this is the hour when God demands the Allness of man. And Perfection is the great standard.**” End of Excerpt.*

The Circles Explained.

The circle, of course, is symbolic of Eternity, or Heaven. The Light coming through the 12-Pointed Star is symbolic of The Light coming from Great Central Sun that also represents the Christ Consciousness. Symbol of the Divine Omnipotence, Omniscience and Omnipresence, Universal Infinite and Eternal Presence is represented by the interwoven Triangles of the Star.

The 8-Pointed Star Explained.

Excerpt from Signet of Melchizedek

*“The name ‘**Seal of Melchizedek**’ really means ‘**Seal of Christ**’. The 8-pointed star is a powerful symbol to orient our minds and hearts towards Christ. And really, what better purpose could a symbol serve than to provide that most mobile purpose for those who will ponder and explore the rich symbolism. End of Excerpt.*

Master Djwhal Kuhl says in part where He defines the Creational Symbology for the New World Flag in the AA Bailey Book 'Discipleship in New Age Vol. 2'. (you can find much more detail there if required.)

*"Someday, the point will take its place in the centre of the square and all the lines will converge upon that point; we shall then have a nation, galvanised into activity by interior Spiritual Energy, and the lines which have hitherto converged inwards towards the centre will become channels or pathways along which Spiritual Energy will flow into every phase of a nation's civilisation and culture; the nation will then be linked up—through the point at the centre, with the source of divine inspiration, which is one for all types, all nations and all races in time and space. I have used the exoteric symbol of the flag to convey to you a hint as to the esoteric meaning of this very simple but most potent form. Four words, or rather phrases, are found written, deep in the metal, around each side of the square: **Fiery Relations, Airy Expansion, Earthly contact, Oceanic Synthesis.***

"These words convey the highly inadequate and even unsuitable translation of certain phrases in the ancient 'Sensa' which are intended to convey the essential union, the related synthesis and the cooperative understanding which will someday distinguish a humanity, composed of many aspects which are nevertheless expressions of the One Life. They are, however, related to, or expressions of monadic groupings or universal recognitions, and not of Soul Consciousness. My difficulty in explaining the higher meaning of the external simplicity of these phrases is great; you can only arrive at them yourself as you ponder the only three interpretations possible to you at this time: the individual application of the symbol, its national application, and its human application, remembering always that the clue to comprehension lies in the recognition of a 'Higher Way', of the existence of the 'Higher Evolution' of the light which is distinctive of Shamballa, and of the use of the Antahkarana, as it bypasses (if I may use such a term) the soul and so carries the human, yet Spiritualised Consciousness into the realms of hierarchical experience in relation to Shamballa." End of Excerpt.
