

Part 3 - True Constitution Petitions

BACKGROUND COSMIC REVIEW TO THE CONSTITUTION OF THE UNITED STATES OF AMERICA AND THE ‘TRUE CONSTITUTION’ OF THE ‘I AM’ ONE WORLD NATION, 30TH AUGUST 2020

As you will see from the Charts that follow, the timing of the signing of the Constitution of the United States of America in 1787 and the timing for the Signing of the ‘True Constitution’ in September 2020 are following an alignment of Intent. Before looking at these charts it would be good to get the background history of the unfolding of the American Constitution. It was back in 1782 that the Great Seal of America was brought into being. The Great Seal of the United States symbolically reflects the values which its creators wished to pass on to the descendants of their New Nation and came with deep esoteric understanding.

Charles Thomson who was responsible for the overall design of the Seal also submitted an explanation of the Great Seal’s symbolism to Congress. The 13 vertical stripes represent the 13 Colonies and the horizontal stripe uniting them, their chief, the Congress. The white stripes represent Purity and Innocence, the red Hardiness and Valour and the blue Vigilance, Perseverance and Justice. That the shield is placed on the breast of the eagle with no supporters is meant to encourage the people of the United States to rely on their own virtue.

In the Eagle’s talons are 13 arrows and an Olive branch representing the powers of Peace and war. Above the Eagle’s head, a Constellation of Stars representing a new Nation taking its place among other Sovereign States. But, from an esoteric awareness, the way the Stars are placed represents the Higher Consciousness interpenetrating the Lower Consciousness,

On the reverse side of the Great Seal of the United States, the esoteric symbolism continues. According to Thomson, the Pyramid symbolizes Strength and Duration, while the Eye of Providence and the Latin motto *Annuit Coeptis* (He [God] has Favoured Our Undertaking) is there to represent the many interventions of Divine Providence in favour of the American cause. This symbol also links to Ancient Wisdom and to the Third Eye.

Beneath the Pyramid the date of the Declaration of Independence MDCCCLXXVI, 1776 and the Latin motto *Novus Ordo Seclorum*, A New Order of the Ages, are meant to signal the inauguration of the new American era. On both sides of the Seal the number 13 represents the original States. On the front of the Seal the Latin motto *E Pluribus Unum* or “Out of Many One,” was meant to reflect the new Union of the 13 States. However, division, disharmony and conflict still continued as the National Government was weak and States operated like independent countries.

So, on 17th September 1787, Delegates at the Constitutional Convention in Philadelphia signed the Constitution of the USA. The Constitution of the United States established America’s National Government and fundamental Laws and guaranteed certain basic rights for its citizens.

'We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquillity, provide for the common defence, promote the general Welfare and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.'

From this a stronger Federal Government with three branches, executive, legislative and judicial, along with a system of checks and balances, would be formed, to ensure no single branch would have too much power.

This is the chart for that moment in time of the signing of the Constitution. You will see that there was a Cardinal Grand Cross between the Sun and Earth and the North and South Nodal Points. The Sun was on Gene Key 6 known as The Path of Peace moving from Conflict to Diplomacy to Peace.

The 6th Shadow of Conflict is the single most influential Gene Key with regards to human communication. At its highest it has the potential for world peace, at its lowest, it is the root cause of all human Conflict. Conflict is created when two or more are caught in a web of volatile emotions and identify with them as reality. In the human body the 6th Shadow relates to the pH balance of the blood.

As you become clearer about your own emotional conditioning you begin to feel more peaceful. Because this Gift is so deeply connected with the pH balance in your physical body it also has the effect of stabilising the emotional aura in your environment. In other words, when one is able to see and own their unconscious projections, they actually rupture the Collective Shadow patterns wherever they go. People displaying the 6th Gift are always

attuned to the right timing of how to act and what to say through the strong resonance of their auric field. They apply emotional intelligence during intense, emotional states. This 6th Gift is breaking down the barriers in human relationships and dismantling the borders and barriers that keep people apart from each other – eventually and ultimately bringing Peace to Earth.

Peace is an auric vibration that surrounds anyone in a Siddhic state. Awareness is no longer trapped within the vicissitudes of the emotional human drama. Profound changes occur in your physical body before, during and after this realisation. Since your outer walls have dissolved, the process is mirrored within your body chemistry and all inner conflict comes to an end. It is as though all the cells within your body make peace with each other and experience their own inner Garden of Eden. In this sense the true Garden of Eden is the body itself. The waves of Peace that accompany this event travel deep into the collective consciousness of all humanity.

The Earth on Gene Key 36 known as Becoming Human moving from Turbulence to Humanity to Compassion.

The whole essence of this Gene Key is about transmuting the ingrained patterns of humanity to become Humane human beings. These are the Souls who have stepped into the Fire and into the Dark Night of the Soul and who through their own experiences have refined the energies of the Collective Shadow.

'At this level of awareness these people are no longer overwhelmed by emotions as they tend to be at the Shadow level but have opened and expanded themselves to Life through harsh experience. As a living transmission the 36th Gift carries a great teaching into the world – the celebration of Humanity. This Gift contains a natural Spirituality – it is one of the most grounded of all the Gene Keys. It is a bridge for the higher bodies of humanity to move down into the lower planes and transform them.'

'This is the Siddhi that spans the chasm between Man and God, between being a victim and being Enlightened. These are the most heart melting people ever to walk the face of the earth. Wherever they go, the true frequency latent within human suffering is immediately released and Compassion tears open people's chests and explodes inside their hearts. The simple presence of such people and the look in their eyes can trigger all manner of so-called miracles in those whom they meet.'

The combination of the 6th and the 36th Gene Keys is perfectly expressed in the line from the Sermon on the Mount - Blessed are the Peacemakers, for they will be called the Sons of God.

And then if we look to the North and South Nodal points – when the Sun and Earth are making a 90° to the Nodal Points then there is a deep connection to a cyclic path that is unfolding in alignment with Spirit – an impulse to assist humanity to embody higher states of being, by integrating the past, taking the culmination of all that has been and then bringing the highest integration of this, to the present, to begin a higher cycle of awareness.

The North Node is on Gene Key 10 known as Being at Ease – moving from Self-Obsession to Naturalness to Being. This natural State of Being reveals that everything we are striving for

in Life and through our Spiritual pathways and practices, is already innately and naturally within us, waiting to flower, when we can step out of our fixation with our identity.

'The life of every individual human being is a journey through the frequencies of this 10th Gene Key. To be natural means to be yourself. We are all trying to be who we are, but many of us have been conditioned to be other than who we are.'

Naturalness unfolds through stages and the final flowering of your inner Being manifests as a challenge to the current norm, since your true nature is always found at the cutting edge of evolution.

The only word that even gives a hint of what the 10th Siddhi holds is the word Being. The 10th Siddhi is destined to be deeply misunderstood by all those who do not live in its embrace. Through the 10th Siddhi a great lightness is born and a great humour concerning Life itself. In the 10th Siddhi there is no sense of 'I' – there is just Consciousness expressed as Being.

And the South Node on Gene Key 15 gives the potential to deeply connect with Gaia through the Magnetic fields.

'The 15th Gene Key is such a powerful portal into Life's mysteries. It is one of the Gene Keys that bridges humans with other life forms and in doing so it connects us profoundly to the living Spirit of Nature or Gaia. The 15th Gift represents the inner barometer within your DNA to the Schumann Resonance – the Earth's heartbeat. One of the greatest challenges for modern humanity is to learn how to slow down.'

'Trusting the natural ebb and flow of life's currents, the people embodying the Gift live closely with the Earth's natural rhythm and experience the wisdom and clarity of slowing down. There is a subtle shift in attitude that unlocks the hidden magnetic force in your DNA. Harnessing the power of the natural world and magnetizing resource you begin to unlock the power in your aura to transmit and receive information between different life forms.'

'The Siddhi level of the 15th Gene Key is Florescence - it is the ultimate flowering of your higher self. As the zenith of human magnetism, Florescence manifests like a supernova through the human aura and once begun it keeps expanding and expanding into deeper and deeper dimensions. What the 15th Siddhi really does for humanity is align us with a higher evolution. The Earth itself contains subtle kingdoms of a far higher frequency than humanity and these Devic Kingdoms are also preparing to take a leap in consciousness by merging with human consciousness. This awakening has been a part of all human mythology and such myths testify to the genetic change that is sweeping through all DNA on our planet. It is even impacting the evolution of the Galaxy and Cosmos itself.'

These were the seeds that were being planted, albeit unconsciously, at the time of the signing of the Constitution back in 1787 – seeds that would continue to embed within the consciousness as planetary cycles continued to unfold throughout the next 233 years to bring us to this point in time of this New Moon and the inauguration of the '**True Constitution**'.
