

# Saros Eclipse Cycle 132

From 13th August 1208 AD

to

17th September 2452 AD

Eclipses are powerful moments in time, as the Conscious Solar Light and the Unconscious Lunar Ancestral memory patterns are fused, cleansed and realigned.

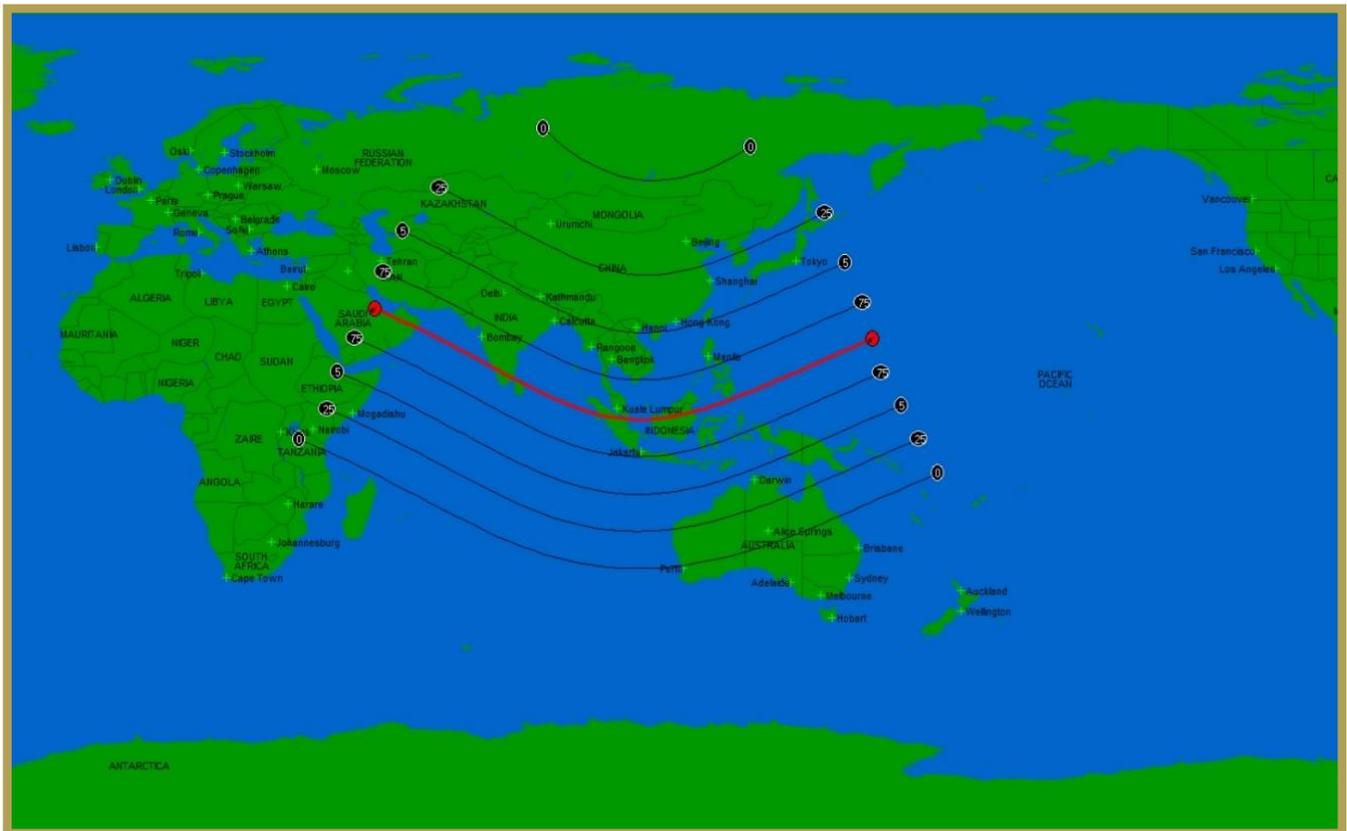

Many centuries ago, Babylonian astronomer-priests studied patterns of eclipses. One of the most brilliant of their observations is the "Saros Cycle". They noticed that eclipses occur in families that link together the eclipses that happen 18.61 years apart. Each Saros Cycle starts at either the North or South Pole and gradually moves up or down across the Earth, over a period of 1200 to 1400 years, to reach the opposite Pole creating Partial, Annular and Total Eclipses, amounting to 70-80 eclipses in all, during that time.

Towards the middle of the cycle is when Total Eclipses are formed - every 6585.322 days, or 18.61 years, the Sun Moon and Earth align in such a way that a Total Eclipse can occur.

These Babylonian astronomer-priests were also the astrologers of their day, leading them to study the influence of the entire Saros Cycle on the individual eclipses that make up the family and this study still holds true today.

The Solar Eclipse that is to take place on 26<sup>th</sup> December 2019 at 5:17 UT first began its journey in 1208 AD and will complete its cycle in 2452 AD

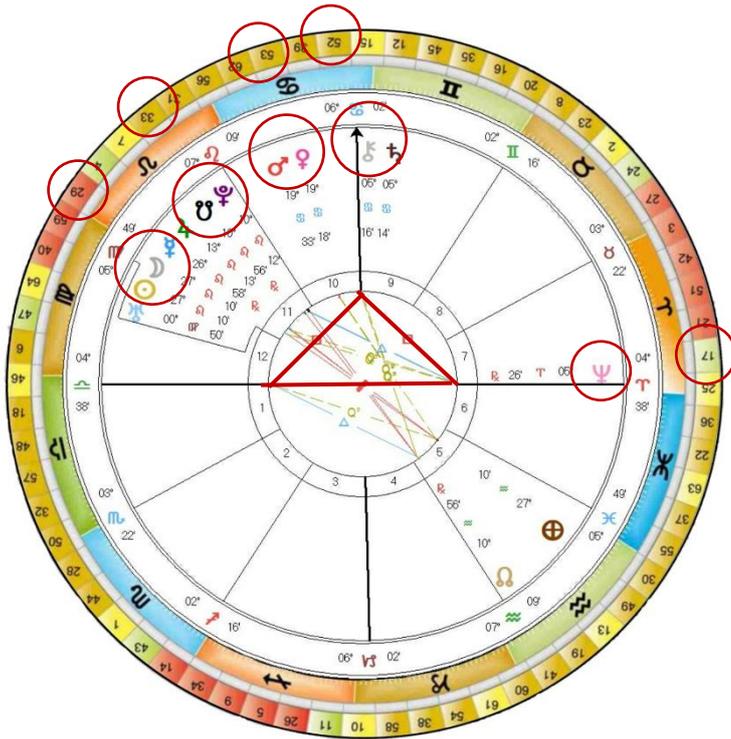

This is the last Solar Eclipse of 2019. The central path of this 2019 Annular Eclipse passes through the Saudi Arabian Peninsula, Southern India, Sumatra, Borneo, Philippines and Guam, but the partial eclipse will be visible for thousands of kilometres away from this central path. It will cover small parts of Eastern Europe, much of Asia, North/West Australia, East Africa and the Pacific and Indian Ocean.

Although focused upon a specific area and not visible everywhere, the effects of an Eclipse are Global and the Solar Eclipse influence is active for some six to nine months within the Group Consciousness Field as a whole.

So to understand what is unfolding it is a good idea to look at the original chart to see how the planetary energies were placed at the inception of this Saros Cycle 811 years ago and how they interconnect with the current orbital paths of the planets in 2019 at the time of this Solar Eclipse.

Saros Cycle 132 13<sup>th</sup> Aug 1208 8:31 UTC

In the chart for 1208 you will see that at the time for this New Moon and the start of this particular Saros Cycle, many planets are together in the sky - Mercury is conjunct the Sun and Moon at 26°/27° Leo, Venus and Mars are together at 19° Cancer, Pluto on the South Node is at 10° Leo, as well as Chiron and Saturn at 5° Cancer on the Midheaven or Mountain Top

Chiron and Saturn are making a 90° angle to both Neptune at 5° Aries and the Ascendant point at 4° Libra.

This conjunction of Chiron and Saturn seems to be the major focal point for this moment in time.

In this 1208 Chart Chiron and Saturn speak of the potential, to manifest the Christos energy that Chiron resonates with, as the Eclipse cycle, over time, anchors more Light into the cellular structure.

The fact that Pluto is on the South Nodal point, in this chart indicates that there is a deep need to learn how to handle the unconscious power of Pluto, and how over the centuries we have misused the 1<sup>st</sup> Ray of the Will to Good, coming from Shamballa/Galactic Centre. This Inception charts speaks of the transformation that will be required if we are to handle this Plutonian energy with Wisdom. With Jupiter also conjunct this planetary configuration making a trine 120° aspect to Neptune, it reflects in many ways the power of the Church and Religions and how this will evolve and change over time.

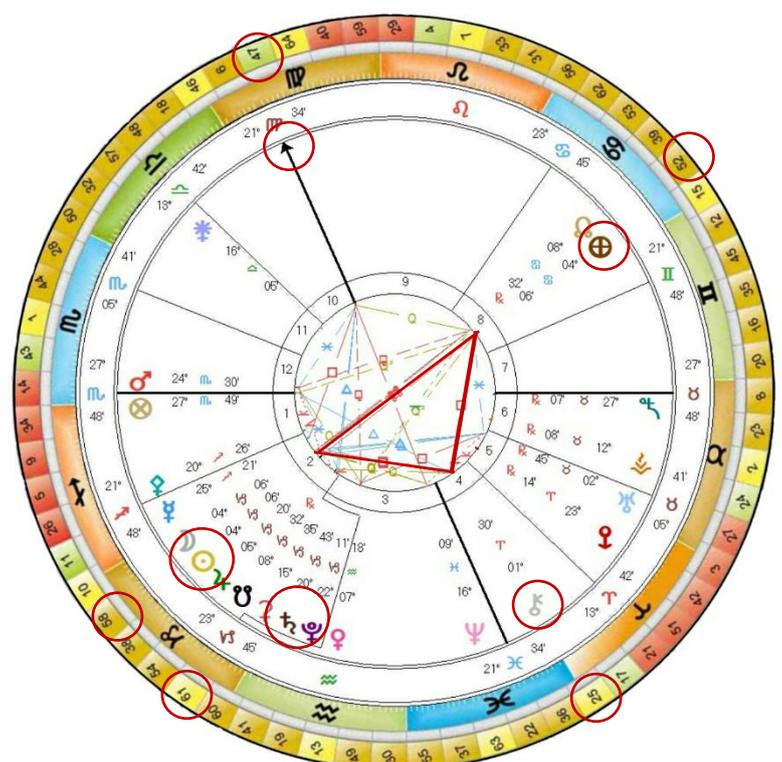

This period of time links to the Crusades that were going on in the Holy Land between Christian and Muslim.

Also, coming from the Group Consciousness of the Shadow, in 1208 Pope Innocent III declared a Crusade against the Cathars. The Cathars were part of a widespread Spiritual reform movement in Medieval Europe. The Cathars had both men and women as priest and priestess, no formal church as such, but they taught and preached their beliefs to all – they were known as the Parfaits – the Perfected Ones.

In many ways, the Cathars, were a link and a continuation of the Essene teachings which had been brought to that area of France in the 1<sup>st</sup> Century AD.

The 20-year military campaign that followed is considered, by many historians, to have been an act of genocide against the Cathars.

Saros Cycle 132 26<sup>th</sup> Dec 2019 5:11 UTC

The actions, reactions, feelings and memories of that turbulent time still swirl within the Collective Unconscious, as we still today, after 800 and more years, witness the divisions occurring between the Muslim and Christian ideologies and yet both Christ and Mohammed spoke the same Truth, Love and Wisdom.

The Sun Moon and Earth, at the time of this upcoming Eclipse, are connecting back into the 1208 chart, when Chiron and Saturn were at 5<sup>o</sup> Cancer, Gene Key 52, and where the Earth will be, as it journeys around the Sun, on the 26<sup>th</sup> of December this year. With Chiron once again being the pivotal point of this Eclipse next week, may these divisions and distrusts be released, transmuted and healed from within the Collective.

As mentioned in the Cosmic Review for this month's New Moon, Chiron will be on Gene Key 25 which has at its zenith Universal Love, a unifying Love that is beyond all divisions of race, colour and creed.

Pluto at this point in time is conjunct Saturn on Gene Key 61. Have we evolved sufficiently over these last 800 years to now utilise the power of Pluto to bring about transmutation and healing, rather than unbridled acts of power? Gene Key 61, known as the Holy of Holies, lifts us beyond Psychosis into Inspiration and on to Sanctity.

*'By its very nature the Gift of Inspiration is spiritual because it serves to loosen the hold of your mental constructs, opening and expanding your capacity for Love. This Gene Key represents a mystery hiding inside every single unit of matter within the Universe. The mystery is the mystery of Christ Consciousness, that quintessence of Inner Light that holds all things together. This codon ring shows that evolution is a force that is breaking out from inside of us and that to unlock its secrets we have only to look inside.'*

*As you enter the field of the 61st Siddhi a huge pregnant silence descends and all your mental activity abruptly ceases. Here inner Truth resides. In Western mythic traditions, this is a place called by many names – the Covenant, the Grail, the Holy of Holies. In the East it is generally described as a state – Enlightenment, Nirvana or Samadhi. A human being who is embodying the 61st Siddhi is nothing but a human vehicle manifesting pure Universal Consciousness. This state of Sanctity is the underlying nature of reality and until you come to rest within it you are asleep. In the future the 61st Siddhi will become far more common place, because humanity is in the process of making a quantum leap. The children who will begin to arrive on this planet will carry this Siddhi of Sanctity in their bones. They will be the living embodiment of Life's potential in form.'*

And finally, and in perfect timing, the Midheaven or Mountain Top for this chart is at 21<sup>o</sup> Virgo Gene Key 47, assisting us to Transmute the Past, leading us out of Oppression, through Transmutation and Transfiguration.

*'The 47<sup>th</sup> Shadow is the storehouse of human karma. What we term as karma really refers to memory, but not memory as we commonly understand the term. This is genetic memory carried in our blood from our ancestral lineage. In genetics the 47<sup>th</sup> Shadow refers to what is called non-coding DNA or 'junk' DNA. The fact is that every human being carries the entire evolutionary memory of humanity within their body and is unconsciously driven by this memory.'*

*'It is through the Gift of Transmutation that the true purpose of your hidden genetic programming the junk DNA is revealed. The alchemical process of Transmutation consists of an endless series of small mutations leading to a finite number of transmutations. These Transmutations are huge turning points in your life. To transmute is to make a quantum leap into a whole new dimension.'*

*'The 47th Siddhi reveals the ultimate purpose of the non-coding DNA within the body, which actually does code for a process within the physical body. The Life of Jesus Christ is in fact the perfect mythic enactment of all the stages of alchemical transmutation ending in this state of Transfiguration. As each individual faces, embraces and transmutes the collective fear that lies within the heart of every human's DNA we are Transfigured by Divine Grace – accessing the Divinity that lies within each and every one of us.'*

So as this Eclipse cycle unfolds at this Holy time of Christ Mass may we be the embodiment of Divine Grace for Universal Love to flow to All and may All Beings be lifted into the State of Christ Consciousness as this cycle continues to unfold over the next 400 years.

Love and Blessings to All
