

SERIES 1 PART 1 - DIVINE ECONOMY – MASTER DJWHAL KHUL, 4TH
NOVEMBER 2019

Beloved Showers of the Way, in the last series of Discourses much has been referred to regarding the Law Of Economy, and it is for this reason that I feel imperative for you all to truly grasp this Law for what it not only means but from your present standpoint how this Ashramic Group Life you are entering into will be able to utilize it for greater benefits within your World Service to humanity and a World in need! There is no question, that matters relating finance in particular, right now, must be dealt with, if you are going to move forward, not only on an individual basis, but as a Unified Group Effort that will be expanding outward beyond your present Inner Circles, to fundamentally embrace all facets of human life and all fields of business, research, education and teaching, the Divine Spirituality of God Consciousness in the Healing of human physical, mental and emotion consciousness, the productivity of human resources including food, clothing, housing, mechanization, transport, technology and perhaps one of the areas you have not considered to date, that of the Formations of the New World Governments. Politics as the World knows it today has now reached its usefulness and must change of humanity is going to step into any Higher Form of God Life. Much Work is needed now, and the Universe is Aligning Itself for the changes that are coming. Dear Brothers and Sisters, there is no turning back, the Path is Set, it is only Humanity that needs to catch up!

So, to move more deeply into the understanding of the Law of Economy, first we must review what has been shared with you to date about the Law of Synthesis. That is:

The Three Great Major Cosmic Laws – The Law of Synthesis, Attraction and Economy.

Excerpts from *“Alice Bailey; Shamballa - Hierarchy – Mankind.”*

What is a Law?

It is the imposition (upon both the lesser and the more important) of the Will and Purpose of that which is superlatively great.

Therefore, it lies beyond man's range of knowledge or understanding. Man has some day to learn that all the Laws of Nature have their higher, spiritual counterparts, and of these we shall shortly be in search. Our Laws today are but Secondary Laws. They are the Laws of Group Life and they Govern the Kingdoms of Nature and find their expression (for the Human Kingdom) through the medium of the mind, of the emotional nature, and through a physical plane agent.

There are three Cosmic Laws: The Law of Synthesis, the Law of Attracting and pulsation, the Law of Economy.

Law of Synthesis

It is almost impossible for those of you who have not the Buddhic faculty in any way developed, to comprehend the scope of this Law. It is the Law that demonstrates the fact that all things, abstract and concrete, exist as one.

The synthesis of the teaching or of the training given is something which you should not overlook. The unit, the individual and the part are always viewed in relation to an expanding and inclusive whole. One of the marks of readiness for Initiation is the ability to see this inclusive entity and to note the Law which is transcended when the part becomes the whole.

Later, after the Fourth Initiation, the Disciple comes increasingly under the Law of Synthesis, which is the major Law of the Spirit in the Universe. His capacity then, to include, rapidly develops and his sense of awareness can (after the Sixth Initiation of Decision) begin to range in an extra-planetary fashion.

The Law of Synthesis has a direct connection with One who is still higher than our Logos and is the Law of Control exercised by Him upon the Logos of our system. This is a Spiritual relationship that tends to abstraction or to that synthesis of the spiritual elements that will result in their conscious return to their cosmic point of Synthesis, or of Unification with their Source. Their source is the One about whom naught may be said, as we have earlier seen.

The Law of Synthesis, operating between all forms which the self-occupies, and the recognition of the essential Unity of all manifestation by the means of sight. The will to exist, is governed by the Law of Synthesis, and the activities of the Cosmic Entities who are its embodiments are governed by the Law of Enforced Unity, and of essential homogeneity. It is the Law that eventually comes into play after spirit and matter are blending and adapting themselves each to each. It Governs the eventual synthesis of Self with Self, and finally with the All-Self, and also of essence with essence in contra-distinction to the synthesis of Matter and Spirit.

An atom is Governed by the Law of Economy, is coming slowly under the Law of Attraction, and will eventually come under the Law of Synthesis.

A Heavenly Man is governed by the Law of Attraction, has transcended the Law of Economy, and is rapidly coming under the Law of Synthesis.

Law of Attraction and Repulsion

The Law of Attraction and Repulsion is fundamentally the Law that describes the compelling force of attraction that holds our Solar System to the Syrian. That holds our planets revolving around our central unit, the Sun. That holds the lesser systems of atomic and molecular matter circulating around a centre in the Planet. That holds the matter of all physical plane bodies, and that of the subtle bodies co-ordinated around their microcosmic centre.

The general Law, which produces Cyclic effect, is the Law of Attraction and Repulsion, of which the subsidiary law is the Law of Periodicity, and of Rebirth. Cyclic Evolution is entirely the result of the activity of matter, and of the Will or Spirit. It is produced by the interaction of active matter and molding Spirit. Every form holds hid a Life. Every life constantly reaches out after the similar life latent in other forms. When Spirit and matter sound the same Note, Evolution will cease. When the note sounded by the form is stronger than that of Spirit, we have attraction between forms. When the note sounded by Spirit is stronger than that of matter and form, we have Spirit repelling form. Here we have the basis for the battlefield of life, and its myriad's of intermediate stages.

This Law is, as we know, the basic Law of all manifestation, and the paramount Law for this Solar System. It might strictly be called the Law of Adjustment or of Balance, for it conditions that aspect of electrical phenomena which we call neutral. The Law of Economy is the basic Law of one pole, that of the negative aspect; the Law of Synthesis is the basic law of the positive pole, but the Law of Attraction is the law for the fire which is produced by the merging during Evolution of the two poles. From the standpoint of the Human Being, it is that which brings about the realization of Self-Consciousness.

Under this Law the karmic Lords are enabled to bring together those lives (human, subhuman, and superhuman) which have earlier been associated, and have, therefore, somewhat to work out. The Seven Heavenly Men, for instance, are a few out of the Great Band of Associated Lives who have chosen to come into incarnation in this kalpa for purposes of mutual help and mutual correction. They are really destined to work together, but nevertheless on other Cosmic Planes have points of contact unknown to us.

This attractive Principle is found in all forms, from the tiny form of the atom to that form, the Planet Earth, through which our Planetary Logos expresses himself. But if it is the Principle of Coherency and the cause of integration, it is also the medium through

which 'restitution' is brought about and by which the Human Soul is periodically re-absorbed into the overshadowing soul. This aspect of the Law of Attraction has, as yet, received little attention. The reason is that it concerns the highest expression of that Law and is therefore related to the Will-Aspect of Deity, as also the Will-Aspect of the Monad. Only as the Shamballic Force proceeds with its more direct work in the coming cycle, and men and women begin to discriminate (as they must and will) between self-will and the spiritual will, between determination, intention, plan, purpose, and fixed polarization, will clarification come.

I would remind you that the Law of Attraction is an aspect of the fundamental Law of Love, it concerns the psyche or Soul, and therefore its function is to further the Spiritual interests of the true man, and to demonstrate the power of the second aspect, the Christ Consciousness, and the Power of Divinity. It rejects the undesirable in order to find that which the heart craves, and thus leads the weary pilgrim from one rejection to another, until with unerring choice he makes the Great Decision. This is quoted from the Old Commentary.

After the First Initiation, the disciple comes under the Law of Attraction which carries and wields the energy of love and, though the Law of Economy is then abrogated, it preserves an habitual control over the habitual process of the form vehicles which are now used under the Law of Attraction. This Law works within the consciousness of mankind and also within the forms in the Service of the Hierarchy. This Law of Attraction is a major Soul Law.

Under the Law of Attraction the nature of love is revealed, first of all through desire for form life, and then through attraction to the Soul and a consequent resolution of the dualities of soul and personality. This brings about a unity which - in due time - serves to reveal a greater potential dualism - that of Soul and Spirit. This fundamental duality must also be resolved, leaving the essential, universal planetary duality, spirit-matter, present in time and space.

Owing to the fact that the Law which governs the Hierarchy is the second Systemic Law, the Law of Attraction, students are apt to think that magnetism is a Second Ray quality. They are right in so far that all the Systemic Laws are expressions of the Life of God through the medium, at this time, of the Second Ray, which makes our Solar System a Second Ray System. All other Laws and Qualities (for a Law from the Divine Angle is the motivating, Qualified Agent of the Divine Will, as understood in Shamballa) are related to the Second Ray as it manifests through our Planetary Logos.

Remember also that all the Seven Rays are the Sub-Rays of the great Cosmic Ray of Love-Wisdom, which is ever expressive of relationship, implemented under the Law of Attraction. It is this form of esoteric attraction which draws the Master forth from his Ashram, conditions his decision and eventually leads to his passing through the door which opens on to other spheres and planes of activity.

Constantly, therefore, this great circulatory process goes on, demonstrating anew the essential Synthesis underlying all life; human, planetary, systemic and cosmic. It reveals also that the Law of Attraction, the Law of Magnetic Work, and the Cosmic Law of Synthesis are three aspects of one Law for which, as yet, we have no name.

The Law of Economy; also called **The Law of Economy of Force.**

One of the Three Major Laws. The Activity Aspect. There is also this Law that pertains to the expanded Nature of this Law in Action.

The third Law is the Law of Economy and is the Law which adjusts all that concerns the material and spiritual Evolution of the Cosmos to the best possible advantage and with the least expenditure of Force. It makes perfect each atom of time, and each eternal period, and carries all onward, and upward, and through, with the least possible effort, with the proper adjustment of equilibrium, and with the necessary Rate of Rhythm.

Unevenness of rhythm is really an illusion of time and does not exist in the cosmic center. We need to ponder on this, for it holds the secret of peace, and we need to grasp the significance of that word through, for it describes the next racial expansion of consciousness, and has a hidden meaning. The person who aims at providing a point of contact between conditions of chaos and Those Who work for constructive ends and order, should likewise use that most necessary factor of common-sense in all that s/he does. This involves always obedience to the law of economy of force, due to discrimination, and a true sense of values. Where these are present, time will be economized, energy will be wisely distributed, excessive zeal will be eliminated, and the Great Ones will be able to depend upon an aspirant's sagacity and thus find a helper.

The Brahma aspect of the Logos is characterized by that method in the wide distribution of matter, the scattering of the atoms of matter and their dissociation from one another, vibratory rhythm, heterogeneity and quality and their inherent rotary action. This Law of Economy causes matter always to follow the line of least resistance and is the basis of the separative action of atomic matter. It governs matter, the opposite pole of spirit. Initiates must master this Law before they can achieve liberation, or enlightenment.

A man or woman then, is governed by the Law of Attraction, is evolved through the Law of Economy, and is coming under the Law of Synthesis. Economy governs the material process with which he or she is not so much consciously concerned. Attraction governs his or her connection with other units or Groups, and Synthesis is the Law of their Inner Self, of the Life within the form. Mankind finds their place within the Group form. Egoic Groups and the Heavenly Man and Woman are formed by the aggregate of Human and of Deva Units.
