

SERIES 1 PART 11 - DIVINE ECONOMY - TEN SEED GROUPS - LUCIS TRUST - MASTER DJWHAL KHUL 10TH DECEMBER 2019

The following is not necessarily a Discourse as we have shared previously: more of a Group Impression from the Masters, to bring us further detailed information from which to proceed! All the following information came from the LUCIS Trust <https://www.lucistrust.org/> both from the writings of Master Djwhal Khul through Alice Bailey and being compiled by the LUCIS Trust themselves.

The reason this is being placed within this Series of Discourses is because the content is so impeccably placed timewise for the Elemental Grace Alliance, that also tells us that between **21st December and the 28th December this year** the Celebrations of the New Group of World Servers is upon us! This Celebration comes every 7 years and shall be the 2nd since the December 2012 of such an event. Part of the Celebrations, the LUCIS Trust is putting on free seminars to highlight the Evocation of the Power of the One Life. More information can be found upon the website <https://www.festivalweek.org/>. It is our responsibility to Unite with this Celebration, so let us do this in Love and Joy in whatever way each may individually like to participate, but more so as a New Living Ashramic Group Organism.

May the Power of the One Life pour through the Group of all True Servers.

May the Love of the One Soul characterize the lives of all who seek to aid the Great Ones.

May We fulfil Our Parts in the One Work through self-forgetfulness, Harmlessness, and Right Action and Right Speech.

To compliment this week of Celebrations we herewith include the information about the various New Groups of which We Are a very definite Part. Having reviewed all them in detail, the Synchronicity of the receipt of this information ABSOLUTELY Aligns with DK's New Series of Discourses and is certainly so apt before we enter into the details about setting up the New Headquarters' in a physical location, the way the New Groups and Sub-Groups of the Elemental Grace Alliance will come together within the combined Gatherings that will take place within both the Individual Cave the Head and the Group Inner Cave where Spiritual Integrity and Integration will be developed. This Discourse then now becomes part of this Series!

The gold coloured text are commentaries, observations and additional notes that relate more toward the present day awareness of these New Seed Groups to provide for a broader foundation of understanding of such Formulas of Approach in the expansion of human growth and development.

SEED TIME

One of the more important features in the work of Alice Bailey and the Tibetan (Djwhal Khul) is the description of ten New "Seed Groups". These are an experiment in

conscious Group work, which has been made possible because of the evolutionary progress of the human race as a whole.

The work is slow and planned to take place over two centuries (*from 1945 approx.*) rather than a few decades. These Groups are actually intensifying Points of Life Embedded within the New Group of World Servers through which New types of Energy enter into the human race. They are also germinating Points of Light that Act as an Illumined Pathway to Guide us all into a New Era of closer relationship with the Spiritual Hierarchy of our Planet, better relationships within humanity itself and an overriding Sense of Loving, global responsibility.

The function of these Groups is to intuit and anchor New ideas and methods within the consciousness of humanity. They work on every level of human awareness and activity. Some, like the Group of Telepathic Communicators, function mostly behind the scenes, facilitating a closer vertical rapport between Hierarchy and Humanity as well as a horizontal understanding and integration between the different Seed Groups too.

Others, like the Group concerning itself with New values and initiatives in education, are clearly in evidence in the creative experiments and innovations in their particular fields that are already producing such good results in various parts of the world. Many who read this, will recognise an affinity with one or other of these Groups. This should enhance the ability to identify one's service Group and take a step forward in the life of the Soul.

THE TEN SEED GROUPS

(All extracts, some adapted, are taken from 'Discipleship in the New Age, Vol I', pp.35-42)

1. Telepathic Communicators
2. Trained Observers
3. Magnetic Healers
4. Educators of the New Age
5. Political Organisers
6. Workers in the Field of Religion
7. Scientific Servers
8. Psychologists
9. Financiers and Economists
10. Creative Workers

These Groups Constitute an Experiment. This Experiment is fourfold in Nature and a concise statement about it may prove helpful.

I. They are an experiment in founding or starting Focal Points of Energy in the human family through which certain Energies can flow into the entire Human Race.

II. They are an experiment in inaugurating certain New Techniques in work and in modes of communication.

III. These Groups are also an externalisation of an inner existing condition.

They are an effect and not a cause. That they themselves may have an initiatory effect (*as they work out into manifestation upon the physical plane*) is no doubt true; but they are themselves the product of an Inner Activity and of a subjective aggregation of Forces which must perforce become objective. The Work of the Disciples who find their place in these various Groups is to keep in close rapport with ten inner Groups which form, nevertheless, one large active Group. This Group Force will then pour through all the various Groups just in so far as the Disciples in the Groups do the following things as a Group:

- Keep en rapport with the Inner Source of Power.
- Never lose sight of the Group Objective.
- Cultivate the dual capacity to apply the Laws of the Soul to the individual life and the Laws of the Group to Group life.
- Use all the Forces which may flow into the Group in Service; they must learn, therefore, to register those Forces and use them correctly.

IV. These Groups are also an experiment which has for its objective the manifestation of certain types of Energy which will, when effectively functioning, produce cohesion or at-one-ment upon earth. The present distraught condition in the world, the international cataclysm and apparent impasse, the religious dissatisfaction, the economic and social upheaval and the appalling effects of war are all the results of energies that are so potent, owing to their immense momentum, that they can only be brought into Rhythmic Activity by the imposition of stronger and more definitely directed energies.

Each of these Groups learns to use a specific Geometric Alignment of certain of the Energy Centres up the spine to facilitate their Work. We list these for every Group. However, the right use of these Centres will take place only when there is a Greater Group unity established among the members of the individual Groups and among the Groups as a Whole.

1. THE TELEPATHIC COMMUNICATORS

These people are receptive to Impression from the Masters and from each other; they are the Custodians of Group Purpose and, therefore, closely related to all the other types of Groups. Their work is largely on the Mental Plane and they work in and with

thought matter and with the reception and direction of thought currents. They are also working at the facilitation of communication between individuals so that the Rules and Methods whereby speech can be transcended may become known and the New Way of intercourse be brought about.

Communication will eventually be:

- a. Soul to Soul on the higher levels of the mental plane. This involves complete Alignment, so that Soul-Mind-brain are completely at-one.
- b. Mind to Mind on the lower levels of the Mental Plane. This involves the complete integration of the personality or lower self, so that Mind and brain are At-One.

This Group uses the following Centres in their work: The head, heart and throat Centres.

Owing to the nature of their work which is esoteric and largely on the mental plane, there is little that can be said about evidence of their activity and effectiveness in the outer world. However, it is worth pointing out that the increased intensity of certain ideas that are promoting the values of the soul and are championing human unity and the sense of responsibility might well be attributed to the success of the inner work of this particular Group.

2. THE TRAINED OBSERVERS

Their objective is to see clearly through all events, through space and time by means of the cultivation and use of the Intuition. They work very largely on the astral plane at the dissipation of glamour, thus bringing in Illumination to mankind. Thus another type of Energy is brought into play, producing another type of inter-relation and Communication. This Communication is between the plane which is the plane of Illumination and Pure Reason (*the Buddhic Plane*) and the plane of illusion and glamour, which is the astral plane. The Trained Observers are asked to remember that their great task is to dispel the world illusion through the pouring in of Light. When there are a sufficient number of Groups, working along these lines, there will be found, upon the physical plane, certain Channels of Communication which will Act as the Mediators between the World of Light and the world of illusion. They will be Transmitters of that Form of Energy which will break up the existing glammers and illusions, and so dissipate the ancient deceptive thoughtforms. They will release the Light and Peace which will illumine the astral plane and dispel the illusory nature of its life.

This Group uses the following Centres in their work: The head, heart and solar plexus Centres.

The intuition ever views things in terms of the whole. This Group is consequently highlighting the need to renounce the separative and self-Centred tendencies that are making a resurgence within humanity as a whole at this time. It is doing this by making the difference between self-Centred living and the values of service and wholeness usefully and abundantly clear. They can do this by example, and also through their perceptive commentary on world events, thus elevating and purifying the field of journalism.

3. THE MAGNETIC HEALERS

The Members of this Group Work Intelligently with the Vital Forces of the etheric body and seek to bring about the right healing of the personalities of individuals in all aspects of their nature. The work to be done is that of the Intelligent Transmission of Energy to various parts of the Nature, mental, emotional and physical, through the right organisation and Circulation of Force. The Group idea must always be remembered; they must not work as individuals but as Units in a Coherent whole. This will distinguish the New Age methods from the past, for the work will be Group Work and, usually, for a Group. Magnetic Healers must learn to Work as Souls and not as individuals. They must learn to Communicate Healing Energy from the Reservoir of Living Force to the patient or patients.

This Group uses the following Centres in their work: The head, heart and ajna Centres.

Such is the beauty of the human Spirit that as soon as anyone touches the Soul then a compelling desire develops to do something to alleviate the pain and suffering which they see in the world around them. A way in which a lot of people do this is to become involved in one of the many committed and deeply Spiritual Healing Groups. This Seed Group is giving ample evidence of externalising into the physical world of daily living. They go beyond the wonderful work of the more mystically inclined Healing Groups and seek through a Mental Focus to approach the Art of Spiritual Healing in a more scientific and effective way.

4. THE EDUCATORS OF THE NEW AGE

The Service of this Group is along the line of culture and they will work to bring in the New type of education. Their emphasis will be upon the Building of the Antahkarana* and upon the use of the mind in meditation. They will Act as Communicators and Transmitters of two Aspects of Divine Energy, Knowledge and Wisdom. These must be thought of in Terms of Energy. This fourth Group (*whose Work is concerned with the education of the general public*) is a direct Intermediary between the Higher Mind and the lower mind. They are concerned with the Building of the Antahkarana and Their task is that of linking the three Points of Mental Focus, the Higher Mind, the Soul and the lower mind, so that there may be established a Group Antahkarana between the Kingdom of Souls and the world of men, women and children.

This Group uses the following Centres in their work: The head, ajna and throat Centres.

When the Ideals that Inspire this Group are compared to much of what exists in institutional education it is clear that humanity still has a long way to go. Nevertheless, there is wonderful evidence in the world today of trail-blazing Educational Experiments which aim at preparing young people's minds and hearts for the future in a New and Creative Way. Some form of Meditation is often featured as an important part of the curriculum. Leading educational thinkers and organisations today, including UNESCO at the world level, are increasingly emphasising the Moral, Ethical and Spiritual Objectives and needs of the educational process. It is possible to see how, at its best, education is now preparing young people to Self-Realize the Value and Worth of every individual, and at the same time to recognise the fact of the One

Humanity. It is also Energising the Vision that everyone should be a Constructive Member of their community and their country, and an ACTIVE World Citizen. This is Knowledge Be-Coming Wisdom.

** The Antahkarana is the symbolic Bridge of Light that links the Soul-infused personality to the world of the Intuition and the Spiritual Will, the lower mind to the Higher.*

5. THE POLITICAL ORGANISERS

This Group concerns itself with the political life in every nation. They deal with the problems of civilisation and with the relationships existing between nations. The bringing about of international understanding will be their major objective. This Group communicates the “*quality of imposition*”, and an Authority that is lacking in the other branches of this Divine Group Activity. This work is largely First Ray Work. It will embody the method whereby the Divine Will works out in the consciousness of races and nations. Members of this Group will have much First Ray Energy in their equipment.

This Group uses the following Centres in their work: The head and heart Centres and the Centre at the base of the spine.

These days it is a difficult task to give examples of the Exoteric Work of this Group as political opinion is now so polarised and partisan. However, when we look at the principles outlined for this Group, then we can begin to discern more clearly those Groups and individuals whose goal is to develop both good internal national relationships and a healthy internationalism that can countenance the sacrifice of national self-interest to the interest of the good of the whole human family. Needless to say, there are many examples of this. Interestingly, one can see the work of this Group emerging perhaps more clearly outside of the political mainstream in grass root movements, and also in the work of the great international organisations such as the UN who, despite the current political trends, vigorously espouse the international Spirit as the way forward for the whole of the human family.

6. THE WORKERS IN THE FIELD OF RELIGION

Their work is to formulate the Universal Platform of the New World Religion. It is a work of Loving Synthesis and it will emphasize the Unity and the Fellowship of the Spirit. This Group is, in a pronounced sense, a channel for the Activity of the Second Ray of Love-Wisdom, that of the World Teacher, an Office Held at present by the Christ. The Platform of the New World Religion will be built by the many Groups, working under the Inspiration of the Christ and the influence of the Second Ray and these, in Their Totality, will Constitute this sixth Group.

This Group uses the following Centres in their work: The head, heart and solar plexus Centres (*this is necessarily the same as in Group 2*).

One of the most inspiring things to have happened over the past decades is the growth of religious tolerance, mutual understanding and practical co-operation. The false certainties of sectarian dogma are gradually being replaced with the understanding of religion as a path of

lighted exploration into the dimly sensed mysteries of the Spirit. This work , clearly preparatory, is the Essential Platform on which the real work of this Seed Group can be materialised in the future. Perhaps we could highlight one outstanding initiative. This is the meeting at Assisi in 1986 of the leaders of all the main world religions to share what their particular religion had to offer in terms of the value of the natural environment and the Spiritual Duty of humanity to safeguard and nurture it. A more contemporary example is surely the friendship and cooperation between Pope Francis and Grand Imam of Al-Azhar which is helping to transform centuries of misunderstanding and hostility between their two faiths.

7. SCIENTIFIC SERVERS

They will reveal the Essential Spirituality of all scientific work which is motivated by Love of humanity and its welfare, which relates science and religion and brings to Light the Glory of God through the medium of His tangible world and His works. They have a most interesting function but one which will not become evident for a long time, not until the Building Forces of the Universe are better understood. This will be co-incident with the development of Etheric Vision. This Group will Act as a Channel of Communication or Intermediary between the Energies which Constitute the Forces which construct the forms and fabricate the outer garment of Deity and the human Spirits. You will note here, consequently, the possibility that this Group's main Initial Work will be concerned with the problem of reincarnation. That problem deals with the taking of an outer garment or form under the Law of Rebirth.

This Group uses the following Centres in their work: The head, throat and sacral Centres.

Many revolutionary ideas are being researched in scientific circles and New theories are constantly being tested, but as yet the evidence accumulated in areas of research such as consciousness, life after death and the existence of the Soul has not been strong enough to sway the thinking of mainstream science. Notable developments have certainly taken place in applied science and technology, but they have been through the manipulation of Laws of Nature that have been known for over a century, and no New discoveries about the Laws themselves have been forthcoming. An outstanding exception to this is the recent SAFIRE experiment, the results of which are currently being independently examined and verified by the University of Toronto. Through this experiment, preliminary insights into the behaviour of the building Forces of the Universe, referred to in the opening paragraph above about this Seventh Seed Group, may occur sooner than expected, even if the implications are not realised for a long time. The many astonishing results of the SAFIRE experiment indicate that electricity is the Primal Force in the Universe and that the self-organising of matter occurs when exposed to an electric field. More information is available at <https://www.safireproject.com/>.

8. THE PSYCHOLOGISTS

This Group will be concerned with the Revelation of the Fact of the Soul and with the New Psychology (Meta-psychology) which will be based upon the Seven Ray Types and the New Esoteric Astrology and Cosmo-Biology. Their major task will be to relate, through Approved Techniques, the Soul and the personality, leading to the Revelation

of Divinity through the medium of humanity. They will Act also as Transmitters of Illumination between Groups of Thinkers and as Illuminators of Group Thought. They Transmit Energy from One thought Centre to another and, above everything else, they Transmit the Energy of Ideas. The World of Ideas is a World of Dynamic Force Centres. **Let this not be forgotten!** These Ideas, that come from the Higher Levels of Conscious Awareness, have to be Contacted and Noted and Their Energy has to be Assimilated, Appropriated and then Transmitted into Implementation and Love in Action.

This Group uses the following Centres in their work:

The head, heart, solar plexus and throat Centres (*this Group of Disciples will be the First to Use Four Centres in Their Work as They are in a curious sense, the Mediators of thought between the other Groups. They are peculiarly a linking Group*).

Most of mainstream psychology is still rooted in a mechanistic behaviourism that sees consciousness as a by-product of the electrical and chemical activity of the brain. However, the Work of this New Seed Group can be clearly seen in the many Initiatives that are promoting a more Transpersonal 'Formula of Approach'. Outstanding examples are the work and writings of Roberto Assagioli, Viktor Frankl, Erich Fromm, Abraham Maslow, Carl Jung and Carl Rogers, to mention only a very few. Taken together this Pioneering Group is helping to develop the understanding that consciousness is the Primary and Causative Factor in EVERY human being. If we work with the consciousness aspect, then the patterns and problems in the personality which distort the ability of the Soul to Shine through, can be seen and dealt with by Transmutation and a Divine Sublimation that will make all things Whole. Trends in this direction can be seen nowadays in the conscious use of Mindfulness as a Therapeutic Tool. Much research is being done in trying to understand the interrelationship between body-emotions-mind, which has led to the recognition of the Power of Thought over the personality. The efficacy of this New Meta-Psychology will be markedly enhanced when it absorbs the Science of the Seven Rays with an experience of their Conditioning Qualities and Attributes.

9. FINANCIERS AND ECONOMISTS

They will work with the Energies and Forces which express themselves through the interchange and the values of commerce; they will deal with the Law of Supply and Demand and with the Great Principle of Sharing which ever Governs Divine Purpose. They will be the Great Psychometrical Workers, for a Psychometrist is one whose Soul is sensitive to the Soul in others and in All Forms of Life. The Principle of Sharing which must Govern Divine Economic Relations in the future is a Soul Quality or Energy and hence their Work of Relating Soul with Soul. They also Evoke the Soul of the past, linking it with the present and finding it likewise indicative of the future.

This Group uses the following Centres in their work: The head, heart, throat and sacral Centres.

Economics is clearly one of the main battlegrounds in the life of humanity for establishing a greater practical emphasis on the values of the Soul through Divine Economy. On every side we see pitted against each other greed and selfish interests on the one hand, and on the other the

*Heartfelt Desire to Serve humanity by lifting it into a life where the essential physical opportunities and needs of every person are met in a reasonable and Universal Way. Essential to this is the equitable sharing of the world's resources and the crying need for financial justice. This recognition has inevitably evoked a multitude of heartening responses which bear the hallmarks of this New Seed Group. Among them we can highlight the following: The many successful pioneering initiatives that put ethics at the Heart of their business and investment models; the research Groups working out how a 'steady state' or 'circular' Divine Economy Strategy, might operate successfully on every scale from the local to the global, so necessary in a world of finite resources; the campaigns for tax justice, paying tax should be seen as a contribution to the good of society, not as a burden. At the Heart of all this Good-to do, is the Good or Will-to-Be and the Good-to-be-the Willingness-to-be of Service to Humanitarian Work, is the recognition that money is an Enabling Energy that depends for its effect on the Motives of the people using it. As the Heart of Humanity continues to Awaken, and under the influence of this Seed Group, **money will become the "root of much good"**.*

10. THE CREATIVE WORKERS

They are communicators between the Third Aspect of Divinity, the Creative Aspect, as it expresses itself through the Creative Work and in response to the thought world, and the first aspect, Life. They Link and Blend Life and Form Creatively. They are closely related to the ninth Group because today, unknowingly and without any True understanding, they are bringing about a concretisation of the Energy of Holy Desire; this in its turn brings about the Creation of things. Incidentally, therefore, they are concerned with the concretisation of money. Their work is also largely philosophical and concerned with the task of relating, factually and scientifically, the other nine types of Groups so that they may work Creatively upon the physical plane and the Divine Plan may clearly appear as a result of this Divine Synthesis which they bring about.

This Group uses the following Centres in their work: The head, heart, sacral Centres and the Centre at the base of the spine.

There is a clear similarity between this 10th Group and the first Group of "Telepathic Communicators". Both are concerned with relating "factually and scientifically" the other Groups into a functioning Whole. This Group, though, is more focussed on grounding Ideas, based on the Plan of Light and Love, into definite expression on the outer physical plane. Any Project or Initiative, which is not only multi-disciplinary in its approach and has the Building of Right Human Relationships as its Goal, but also is clearly Energised by an inclusive Idealism, is possibly an example of the Activity of this Seed Group working out into physical plane expression.

HARVEST TIME

The work of these ten Seed Groups is planned to cover a span of centuries rather than the time period of a few decades, so it might be thought premature to try and look for results now (1946). However, it is a cause of great hope and a certain spiritual vindication that we can already observe these Seeds not only germinating, but here and there also poking healthy green shoots into the outer world of humanity's daily living,

as the previous pages have revealed. These particular Seed Groups are of course the Specific Project of the Tibetan. It is important to bear in mind that these are not the only such experiments. There are Other Members of the Spiritual Hierarchy who are engaged in similar Spiritual Initiatives. For example, the Tibetan actually mentions that there were two such Seed Groups being established in China and four in India at that time. It is a good exercise in the Creative Imagination to take a step back and try and view the world from the perspective of the Inner Causal Realms. Then we can see these Groups as Integrated Unities on the Inner Side of Life seeking any avenue, they can find to stimulate humanity into a fuller understanding of life and to foster the desire for us all to make the best use of the amazing present Spiritual Opportunities.

We might also be able to discern New Initiatives that are being Lovingly Designed to Plant the Seeds of an Expanding Consciousness in the Heart and Mind of humanity. Many might think that one of these could be the Powerful Seed Group that is already Illuminating and Energising the Urgent Work to Nurture and Safeguard All Life, including the human, in the natural environment. There will be many others. It is wisdom to discover them and support their work.

The Seed Groups Act as Points of Precipitation for the Aquarian Culture and Civilization. There are three reasons for their importance:

- “1. They conceal and nurture the Germ or Seed of the New Civilisation of the Aquarian Age.
2. They bridge between the old Groups and the New Group, between the mass of men and women (*of whom the foremost find their way into the New Group of World Servers*) and the Planetary Hierarchy.
3. They will constitute in the future an aspect of the Hierarchy and its Work upon the outer physical plane.” *Taken from The Externalisation of the Hierarchy, p35*

I hope that this information may shed Brighter Illumination upon the Group Status of this particular Divine Plan of the Elemental Grace Alliance’s Position, and how 80 years or so on, from these writings, just how much further these experiments are throughout the New Groups of World Servers today! It could also be stated here that because the EGA is not a human Plan and has been Created through the Use of Cosmic Laws that has Magnetized the Whole of Shamballa, The Hierarchy and Humanity along with many other Higher Intelligences that the EGA shall envelope at some future time departments as Our Beloved Djwhal Khul says just as is done with larger Organizations or Foundations. It is still early days of course, but, let us hold this Greater Vision as we move forward within this Divine Plan.

It is also Energising the Vision that everyone should be a Constructive Member of their community and their country, and an ACTIVE World Citizen. This is Knowledge Be-Coming Wisdom.

In Love and Light We Share - Peter
