

SERIES 1 PART 2 - DIVINE ECONOMY – RIGHTFUL ACTION - MASTER  
DJWHAL KHUL, 5<sup>TH</sup> NOVEMBER 2019

*Based upon the Work of Lucille Cedercrans. [www.wisdomimpressions.com](http://www.wisdomimpressions.com) and further Divine Impressions of thoughts and feelings from the Masters of the Ashrams of Divine Synthesis through the 7 Rays, but specifically Rays 1,2 and 7.*

Beloved Brothers and Sisters, as part of these Discourses that I wish to share with you there is one aspect of the work that you are going to soon engage, and for this should you not be with its full understanding, it would be easy to direct your energies in the wrong direction, if you are going to Truly embrace the Law of Economy. I tell you that there are several directions you may take if you are coming from an uninformed position of engagement. And that would not be to anyone's benefit at this late hour.

So allow Me to be very explicit as to the direction of your Work now and as We progress you will slowly begin to see that some of the New World Server's past goals have been, I shall say misconceived, ill thought out or visualized for too far into the future, that in Truth, are not based upon the present consciousness of the mass of humanity at this time! And this is where such individuals and Groups today, in many ways have not been able to move too far forward because some of the Goals being set, even if not detailed in any way yet, are what We would deem as overwhelming for the implementation for humanity; not only in its planning and design, but the feelings within those who do not have such visions that will result in impracticalities in reality. Let Me explain for you.

The Work of Reconstruction will be the work of intelligent men and women of goodwill, and theirs will be the task to restore New Life and Happiness to Humanity, and it is for them I write. Please bear this in mind. I am not writing for technical experts and trained advisors to any government, but to those who have goodwill in their hearts to all men, women and children, and who, because of it, want to do their share in bringing tranquillity and Peace to the World; a Peace based on surer values than in the past and upon Sounder Planning. In the last analysis, it is not Peace for which the men and women of Goodwill are working, but for the Growth of the Spirit of Understanding and Cooperation. This alone will be strong enough to break down racial barriers, heal the wounds of disparity, separation, controversy and conflicts of all natures, and build a New World Structure adequate to the intelligent demands of the masses.

Christ said when He was on Earth two thousand years ago: *'I came not to bring Peace, but a Sword'*. The Sword of the Spirit is wielded by the Hierarchy, and by its means cosmic iniquity is arrested. The Sword of Discrimination is wielded by the Initiates and the Disciples of the World, and by its means the distinction between good and bad, with a consequent presentation of *'free will choice'* between the two, has been laid before

Humanity, and the Lines of Demarcation have been made abundantly clear in this World of human imbalances, disproportions and inequality on all levels. It had been the Hope of the Christ and the longing of all the Masters that men and women would see clearly these things and make free and right choice, so that, without physical plane conflicts, they would bring about the needed changes and the ending of wrong conditions. At this stage which we are now within, these responsive people fall into three categories:

1. **The visionary dreamer** or the well-intentioned but impractical person whose ideas and world plans and suggestions as to the New World Order litter the desks of world leaders and of those foundations and organizations who are attempting practically to blueprint the future. Their dreams and ideas deal with projects for which the world of today is not ready and will not be ready for potentially several thousand years. It is an easy thing for them to present impossible Utopias which have not the faintest relation to things which are needed today, and which could be made possible. These people, at this time, they constitute a definite hindrance for they are not in correct understanding that such matters can no longer be applied outside of Ashramic Synthesis Formations, if any step by step Rightful Actions are set in motion. (*Beloved Metatron has told you that it shall be at least 15 generations, that is 300 years before any sort of mass Ascension can be achieved at the very minimum within the present timelines.*) Any vision of the impossible is not the type of vision which will keep the people from perishing. Because of an inability to compromise and to face up to things as they presently are, these unrealistic visionaries and those whom they influence are only going to land in despair and disillusionment.
2. **The Intelligent people** of the World who are actuated by the Spirit of Goodwill and by the conviction that things must be changed. They are often staggered by the magnitude of the task to be undertaken, and this frequently leads them to take one of three positions:
  - i. They fall into the depths of pessimism. It is a pessimism based on a real ability to sense the scope of the problem and to assess the resources available. This may land them into non-activity.
  - ii. They may leave the settling of the problem to the trained statesmen, diplomats and politicians, standing ready to help when - but only when, decisions have been made. This leads to a shifting of responsibility. Yet, because world conflicts involve the people of all lands and masses of population, so must the reconstruction of the world.

- iii. They may assume responsibility, ventilate the abuses which must be put Right, discuss proposed plans and, from their particular angle of vision, set to work to bring about, to the best of their ability, right human relations. This attitude of responsibility and consequent activity may lead to mistakes, but in the aggregate of the endeavour it will meet the demand for Right Action in an emergency, this time a world emergency.
- **Those partisan and nationally minded persons** who will attempt to exploit the world situation for their own immediate ends and for the benefiting of their particular Nation or Group. These people, and they are found in every nation, are selfishly motivated. They do not care for Humanity as a whole and have no liking or interest in anything or anyone but their political party and the reactionary interests of some National Group. They see in the present world situation a grand opportunity to engineer moves which will benefit an individual, a class or a nation. In doing this, they frequently have a wide grasp of affairs and are keen politicians, but all they know is to be used and so implemented that it attains their narrow ends, no matter at what cost to the rest of the world. These people are usually a large majority. Their attitudes lead inevitably to trouble and hinders the Work of Restoration. It handicaps those who are seeking to establish the entire Human Family in a sounder way of life than heretofore, and to give a saner and wiser motivation to International relationships.

The Hierarchy is at this time exceedingly powerful. Its Ashrams are full of Initiates and Disciples, and its periphery or Magnetic Field is drawing countless thousands of aspirants towards it. Conflicts of whatsoever nature strikes a mortal blow to material inequity, and its hold on Humanity is greatly weakened. Confound not iniquity with the activities of the drug lords, gangsters or the criminals. These people are the result of the emerging massed imperfections. They are the victims of ignorance, mishandling when children and misunderstanding down the ages of Right Human Relations. The Law of Rebirth will eventually lead them on the way to good. Those men are truly iniquitous who seek to enforce a return to the bad old ways, who endeavour to keep their fellowmen in slavery of some kind or another, who block the expression of one or all of the Four Freedoms, who gain material riches at the expense of the exploited, or who seek to hold for themselves and for gain the produce of the Earth, and thus make the cost of life's necessities prohibitive to those not richly endowed. Those who thus work, think and plan are to be found in every nation and are usually of prominence because of their riches and influence.

However, they sin against the Light and not through ignorance; their goals are material and not spiritual. They are relatively few compared to the countless millions of men and women but are exceedingly powerful. They are highly intelligent but unscrupulous, and it is through them that the forces of iniquity work, holding back progress, promoting poverty, breeding hatred and class distinctions, fostering racial differences for their own ends, and keeping ignorance in power. Their miscreations are great and it is hard for them to change, because power and the will-to-power (as it militates against the Will-to-Good) is a dominant all-controlling factor in their lives.

**The Forces of Enlightenment.** A realization of the need of Humanity, and a careful appraisal of that which must be done to meet that need, have awakened the men and women of goodwill to responsiveness to the Forces of Restoration. This has led to an insistent demand that the second phase of the Hierarchical Work be set in motion. This phase is directed towards those activities and the development of that Invocative Spirit which will bring the Forces of Enlightenment into contact with Humanity and lead to activity on their part. These Forces can function fully, if the people of the world can be organized to stand with massed intent behind that type of Statesmanship which is seeking the Greatest Good of the greatest number, which sees the world as One Great Interdependent Whole.

During the coming Century, meaning of the Resurrection will be unfolded and then Age will reveal its true significance. The first step will be the emergence of Humanity from the death of its old civilization of its old ideas and modes of living, the relinquishing its materialistic goals and its damning selfishness, and moving into the Clear Light of the Resurrection Life. I Am not here speaking in symbolical or mystical terms. I dealing with facts, facts as real and as imminent as coming Cycle of Conferences. The fact of the Resurrection will be demonstrated during the next few centuries, and the Living Christ will walk among men and lead them onward towards the Mount of Ascension. All men will come under the Tide of Inspiration from on High, and though they may speak with many tongues, they will all understand each other.

It is in the recognition of what is happening to Mankind, right now as a whole and behind the scenes, that the Thinkers of the World and the New Ashramic Groups of World Servers can best Serve. It is the unfoldment of the Human Consciousness in response to the presented conditions in any country that is of the prime importance.

The *'human state of mind'* is just beginning to focus itself on the things that matter and to express itself in a Living fashion. The Thinkers and Servers must learn to concentrate upon the Awakening of Consciousness and not upon the superficial movements. The Energies of the New Ashramic Groups of the New World Servers, before the mid 30's to late 40's, was a relatively negligible factor, even though present, but which is now increasingly a Force with which to reckon. From certain angles, the Energy of this Group constitutes the Hope of the World, and the task of increasing that potency is the task, which is being laid before you here today, should you all accept this Opportunity in Service to Humanity and a World in Need!

The New Ashramic Groups of World Servers are the more Advanced Members of the Human Family, Sensitive to Hierarchical Inspiration and to human need and to Spiritual Unfoldment as a determining factor in World Affairs. The recognition of a Spiritual Hierarchy which will work through the New Ashramic Groups of World Servers must now steadily grow in some form or another. This will happen when the world statesmen and the governments of the different nations and administrative and authoritative bodies, political and religious, are men and women of Vision, Spiritually motivated and selflessly Inspired.

The future World Order will be the Effective Expression of a fusion of the Inner Spiritual Way of Life and the outer civilized and cultural Way of Acting through Right Action. This is a definite possibility because Humanity, in its upper brackets, has already developed the power to live in the intellectual and physical worlds simultaneously. Many today are Living in the Spiritual World also. Tomorrow there will be many more. The New World Order will be confronted with many problems. These problems will not be solved by the imposition of a solution by means of force, as in the axis world order of today. They will be solved by Rightful Educational Processes and by understanding the objectives of the True World Order.

They fall roughly into four categories: the racial problem, the economic problem, the problem of government, and the religious problem. I would here remind you that Members of the New Ashramic Groups of World Servers and men and women of Goodwill must be sought for in every department of life. They will be found among the adherents of all the current ideologies and in political and scientific circles, among the world educators and philanthropists, among the creative workers, the industrialists, in ordinary homes and in the ranks of labour. The New Ashramic Groups of World Servers will import into this world, a New Living Framework of Organismal Communities and Ecological Living with Rightful Love in Action, which is beginning to form now within the world. It is simply a loose linking

together of all men and women of constructive Peace for now, that aims are the Goodwill and who lay the emphasis upon the prior need of establishing Right Human Relations before any lasting Peace is possible. This New Ashramic Group in no way interferes with the allegiance and loyalties of any man, woman or child. It is a banding together of all who seek to express the Spirit of Christ and who are free from the Spirit of hatred and revenge. The challenge of this Group to the World however, is to drop all antagonisms and antipathies, remove themselves from any acknowledgement or interaction on mental levels of all hatred and racial differences, indeed any iniquities of life and attempt to live in terms of the One Family, the One Life, and the One Humanity.

The New Ashramic Groups, now forming, of World Servers believes that (through the Agency of Goodwill) the New World Order can be firmly established on Earth. Through the work earlier done all over the world by the men and women of vision and of Goodwill, there exist today many hundreds of thousands of people in Europe, America and elsewhere, who are waiting for the Higher Guidance which will start them into Right Activity and Rightful Love in Action. In every land the men and women of Goodwill are to be found, ready to respond to the Sounding of the Note of these Ashramic Groups, that of a Clear Call and Intelligent Centre in the Service of Reconstruction. Let them be found.

The message to be taught prior to any future Peace consists of the following three clear and practical Truths:

1. That the errors and mistakes of past centuries, culminating in the present conflicts of all nature today, are the joint errors and mistakes of Humanity as a Whole. This recognition will lead to the establishing of the Principle of sharing, so needed in the world today.
2. That there are no problems and conditions which cannot be solved by the Will-to-Good. Goodwill nourishes the Spirit of Understanding and Fosters the Manifestation of the Principle of Cooperation. This Cooperative Spirit is the Secret of all Right Human Relations and the enemy of competition.
3. That there is a blood relationship between mankind which, when recognized, dissolves all barriers and ends the all separateness and hate. The Peace and Happiness of each is the concern, therefore, of all. This develops the Principle of Responsibility and lays the Foundation of Right Corporate Action. These are the basic beliefs of the men and women of Goodwill and provide the Divine Incentive to all Service and Action. These

three practical and scientific Truths embody the three basic facts and the **Initial Acceptance** of all World Servers. They are contrary to no world position, subversive of no government or religious attitude and are innate in the Consciousness of all men, women and children of all ages, evoking immediate response when applied through Love in Action. Their acceptance WILL *'HEAL'* ALL International wounds and sores.

This is more than enough for today, but I would advocate that all those who are serious about Co-operative Leadership would do well to spend some time reviewing and contemplating what I have shared at deeper levels of comprehension and look at them from the standpoints of the Laws Discussed yesterday!

I Am Brother Djwhal Khul at your Service.
